

**Institute for Marine Mammal Studies**

Team: Owner – IMMS  
 Architect– Eley Guild Hardy Architects  
 GC – Coastal Industrial Contractors

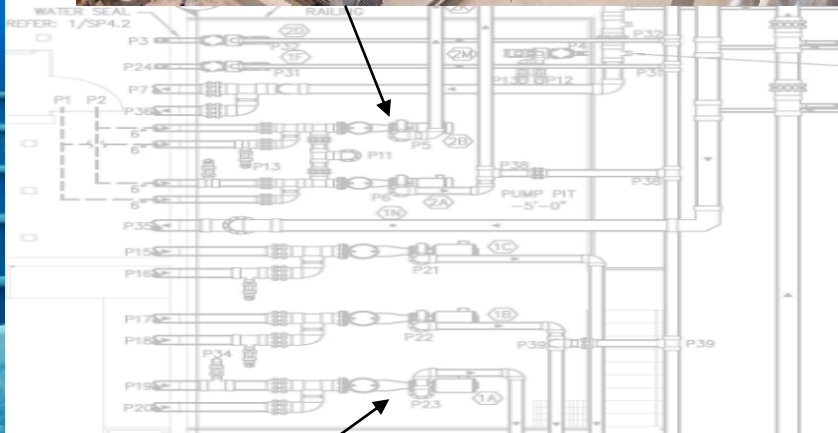

**Concept**

New construction of Dolphinarium and Stingray exhibits for public education at a rescue and rehabilitation facility in Gulfport, MS.

**Scope**

Longhorn performed a build design of the LSS systems. Engineered plans were not usable due to structural changes once on site. Longhorn built two complete functional LSS systems without plans in order to meet opening deadlines and helped the Owner produce record drawings post installation.
